CINDERELLA TOILET SYSTEM

COMBUSTION TOILET FOR CRANE OPERATORS

The Cinderella combustion toilet is easy to install and requires nothing but a 220-240 V input. It produces only ashes as remnants and is free of bacteria. Emptying of the ash bin is easy and required only once for every 300 toilet uses. There is no need for composting agents or chemicals. The Cinderella is odorless and attracts no flies. Approval by NEMKO and CE.
